

WORKSHOP ON ELECTRICAL POWER SYSTEMS AND APPLICATIONS IN MOUNTAIN AND ALPINE CONTEXTS

We are delighted to invite you to the first Workshop on Electrical Power Systems and Applications in Mountain and Alpine Contexts, a unique event that combines technical education, scientific discussion, and practical insights into the electrification of alpine regions.

Join us in the stunning landscape of the Dolomites at Hotel Boite, the historic former ENI Village near Cortina d'Ampezzo! Through an intensive program that blends theoretical training and practical simulation, you will explore the dynamics of the energy and digital transformation. Engage in interactive lessons, debates with sector and institutional leaders, and discover the latest technological innovations shaping the future.

The workshop offers an intensive and immersive learning experience for students, researchers, and professionals, including:

**CORTINA D'AMPEZZO
SAN VITO DI CADORE
BORCA DI CADORE**

30 June-3 July 2025

20 funded spots reserved for eligible university students (age 18+)

Learning & Innovation

Participate in high-level educational sessions led by top experts in the field, covering key topics in digital energy transformation, smart grids, and intelligent transportation.

Hands-on Experience & Nature

Take part in outdoor activities and technical site visits that combine environmental awareness and direct observation of alpine energy systems. Discover how sustainability and innovation go hand in hand in the unique context of the Dolomites and major sporting events in Cortina d'Ampezzo.

Policy & Strategy ThinkTech

Join simulation sessions and strategic discussions with academics, industry leaders, and institutional stakeholders. Explore public policy options, economic evaluations, and effective investment strategies in electrification and regional development.
